REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose a suspension for a wheelchair rear wheel having a pivoted fork hingedly mounted to a frame member of the wheelchair with a free end having a rear wheel axle opening, a shock absorber damping vertical movement disposed between the fork and the mounting member on the frame and pivot limiting means restricting movement of the free end of the fork member.

The prior art does not disclose a suspension for a wheelchair rear wheel having a pivoted fork hingedly mounted through a detachable mounting member to a horizontal frame member of the wheelchair with a free end having a rear wheel axle opening, the mounting member having a base member and an upper member attachable to the base member which members cooperate to surround part of the horizontal wheelchair frame member, a shock absorber damping vertical movement disposed between the fork and the mounting member on the frame, the fork having a seat for receiving a lower end of the shock absorber and the base member having a receiver for receiving an upper end of the shock absorber wherein a first surface of the fork abuts a first surface on the frame mounting member when the shock absorber is fully decompressed.

The prior art does not disclose a suspension for a wheelchair rear wheel having a pivoted fork hingedly mounted to a frame member of the wheelchair with a free end having a rear wheel axle opening, a shock absorber damping vertical movement disposed between the fork and the mounting member on the frame, the fork member
